

TACAIR INTEGRATION TEAM CHARTER

MATERIAL AND FACILITIES

CROSS FUNCTIONAL TEAM III

- Ref:** (a) Navy/Marine Corps TacAir Integration Memorandum of Understanding dtd
14 August 2002
(b) Navy/Marine Corps TacAir Integration Memorandum of Agreement dtd
16 August 2002
(c) TacAir Integration Team Charter dtd 31 October 2003

1. BACKGROUND

The TacAir Integration Team (TAIT) charter (Ref (c)) outlines the process for the integration of Naval Tactical Aviation. The reference forms three Cross Functional Teams (CFT) organized along the Doctrine, Organization, Training, Materiel, Leadership, Personnel, and Facilities (DOTMLPF) planning model. This sub-charter establishes CFT III, Materiel and Facilities.

2. PURPOSE

CFT III is charged with facilitating the Materiel and Facilities functions of the TacAir Integration process in the TacAir Integration Team Charter. CFT III consists of DoN Subject Matter Experts (SME) to make recommendations on the development, funding, and / or execution of materiel and facilities within the Navy and Marine Corps. An O-6 representative from Commander, Naval Air Forces Pacific (CNAP), will chair CFT III and will hold a seat on the Executive Steering Committee (ESC).

3. METHOD

Under this charter, CFT III will meet at least semi-annually in a forum conducive to the exchange of ideas in pursuit of an integrated and effective TacAir force. The chairman shall conduct the duties of the Materiel and Facilities CFT as required to satisfy tasking. Additionally, the chairman shall facilitate coordination with other Cross Functional Teams as required.

4. ENDSTATE

The Chairman shall deliver to the ESC a Plan Of Action and Milestones (POA&M) for the Materiel and Facilities elements of the integration process. At a minimum, CFT III will address the following:

- F/A-18 aircraft and systems distribution and inventory management
- Aviation Logistics support requirements for an integrated TacAir Force
- Identify budget requirements
- Expeditionary ground support requirements for Navy Expeditionary squadrons
- Other relevant tasks identified by SMEs or other CFTs
